CONTENTS OF VOLUME 18

No. 1 January 1971

	Page
Conventional optical polishing techniques. WIKTOR J. RUPP	1
Zoom lenses for the 8μ - 13μ waveband. THOMAS H. JAMIESON	17
Considerations of television holography. ALBERT MACOVSKI	31
Utilisation des cristaux biaxes dans les interféromètres à polarisation. Prisme de Wollaston et polariscope de Savart. M. L. ROBLIN ..	41
Méthode de sélection de vibrations de directions différentes. JEAN- JACQUES CLAIR	47
Numerical image synthesis for a ring pupil. LAWRENCE MERTZ	51
An equation relating the diffuse reflectance of weakly absorbing powdered samples to the fundamental optical parameters. E. L. SIMMONS ..	59
Correspondence:	
Beamsplitter phase errors in a Michelson interferometer. A. MUSSET	69
Effect of slit width on the effective halfwidth of wedge filters. A. MUSSET	71
Symposium Notice	73
Book reviews	77
Errata	80

No. 2 February 1971

Editorial

Status of OTF in 1970. L. R. BAKER	81
The influence of inaccuracy of construction parameters on the calculated optical transfer function. K.-J. ROSENBRUCH	93
Interlaboratory comparisons of MTF measurements and computations on a large wide-angle lens. ROBERT E. HOPKINS and DAVID DUTTON	105
OTF techniques in the routine testing of production lenses. F. J. P. CONSITT and W. MANDLER	123
Accuracy in image evaluation: setting up an OTF standards laboratory. A. C. MARCHANT	133
The construction and proving of three 50 mm focal length standard reference lenses. K. G. BIRCH	139
Comparison test of several OTF measuring equipments in Japan. Y. MATSUI and K. MURATA	149
Conference Notice	165

No. 3 March 1971

	Page
Optical synthetic aperture analogues of two radio interferometers. D. E. YANSEN, G. O. REYNOLDS and D. J. CRONIN	167
Messung der Modulations-Übertragungsfunktion von Faserplatten. PAUL KUTTNER	181
Optische Interferometer mit evakuierten Lichtwegen. KLAUS KERL ..	187
Theory of the non-linear longitudinal Kerr magneto-optic effect in ferromagnetic metals. R. J. ROMAGNOLI and P. E. FERGUSON ..	191
The power spectrum of a truncated sinc function. P. E. LAGASSE and A. A. WILLEM	205
Spectrométrie et spectrographie interférentielles par dédoublement achromatique transversal de la source. I. ROLAND PRAT	213
Book reviews	245
Erratum	246

No. 4 April 1971

Spectrométrie et spectrographie interférentielles par dédoublement achromatique transversal de la source. II. ROLAND PRAT	247
The calculation of the optical transfer function. J. MACDONALD ..	269
Zur beugungstheoretischen Berechnung der Punktbild- und Übertragungs- funktion optischer Systeme. R. ANGSTMANN	291
A new method for reducing the sensitivity of an interferometer. C. P. GROVER and D. SEN	305
Laser beam scintillation beyond a turbulent layer. K. S. GOCHELASHVILY and V. I. SHISHOV	313
Book reviews	321
Notice	325

No. 5 May 1971

Detection of images immersed in speckle noise. J. C. DAINTY	327
A model of threshold detection performance for the central fovea. I. OVERINGTON and E. P. LAVIN	341
Improvement in Fraunhofer diffraction images of an aberrated optical system operating in partially coherent light. P. K. KATTI and B. N. GUPTA	359

	Page
Diffraction theory of the method of the caustic for measurement of optical surfaces. JUAN M. SIMON	369
Spektrales Reflexionsvermögen von Silikaten im Infraroten bei senkrechter und schräger Inzidenz und deren spektrale Durchlässigkeit bei senkrechter Inzidenz. W. FRIEDL und H. KRÜGER	385
Book reviews	401

No. 6 June 1971

The optical effects of a double calcite plate on a converging beam of light. PETER W. J. L. BRAND	403
Transmittance and reflectance of systems of thin and thick layers. C. J. GABRIEL and A. NEDOLUHA	415
Bildfehlerabschätzung für Röntgenstrahlenteleskope. HANS WOLTER	425
The far-field diffraction properties of apertures. II. Generalized annular apertures with Besinc correlated illumination. S. C. SOM and S. C. BISWAS	431
Hamiltonian optics. II. The phase characteristic. H. A. BUCHDAHL ..	453
Effects of image blur and lateral inhibition in the visual system on visual performance. J. C. TRINDER	461
Book reviews	479

No. 7 July 1971

Holographie des objets de phase. Etude de quelques méthodes d'exploitation de l'onde restituée. P. SMIGIELSKI	483
Diffrimoscopic image formation under partially coherent illumination (straight edge). S. V. GUPTA and D. SEN	507
Application du théorème d'échantillonnage à la restitution d'objets partiellement connus. III. Décomposition des spectres. O. ROBAUX	523
Some phenomena connected with the optical monitoring of thin-film deposition, and their application to optical coatings. A. J. VERMEULEN	531
Réalisation d'un système de franges achromatiques a pas variable. M. L. ROBLIN	539
Effect of partial coherence on the resolution of a microscope. II. Annular aperture at condenser. G. S. BHATNAGAR and R. S. SIROHI	547

	Page
Correspondence :	
Commentaires sur le " Monochromateur à réseau concave en incidence normale pour l'ultraviolet lointain ". M. POUHEY, M. PRIOL, A. QUEMERAIS et S. ROBIN	555
Book reviews	559
Conference Notice :	
International Conference and Exhibition: Electro-Optical Systems Design	561

No. 8 August 1971

The design and preparation of achromatic cemented cube beam-splitters. P. B. CLAPHAM	563
Synthesis of multiple anti-reflection films by the rational function method. A. KUČÍRKOVÁ	577
Influence of partially coherent illumination and spherical aberration on microscopic resolution. S. C. SOM	597
The far-field diffraction of light rendered partially coherent by atmospheric turbulence. I. Diffraction by circular apertures. S. C. SOM and S. C. BISWAS	609
Visual aberrations of afocal systems. P. J. SANDS	627
Correspondence :	
The theoretical instrument function of a Fabry-Perot etalon with finite aperture. H. NEUHAUS and P. NYLÉN	637
Book reviews	641

No. 9 September 1971

The far-field diffraction of light rendered partially coherent by atmospheric turbulence. II. Diffraction by generalized annular apertures. S. C. SOM and S. C. BISWAS	643
A double refracting interference microscope with continuously variable amount and direction of wavefront shear. M. PLUTA	661
On Fresnel diffraction by one-dimensional periodic objects, with application to structure determination of phase objects. J. P. GUIGAY	677
The influence of random wavefront errors on the imaging characteristics of an optical system. RICHARD BARAKAT	683
Über die optischen Konstanten feiner Goldhydrosole. CHRISTEL NOETZOLD und HANS WOLTER	695
Depolarizing prism. E. SCHMIDT and K. VEDAM	713

No. 10 October 1971

	Page
A simple inverting interferometer. P. N. PUNTAMBEKAR and D. SEN ..	719
Holographic noise levels in two silver halide recording media. K. O. HILL and G. W. JULL	729
Automatisches Korrigieren unter Berücksichtigung der zweiten Ableitungen der Gütefunktion. H. BRUNNER	743
Monocular cues control binocular alignment. MARCEL KINSBOURNE and JUDY SEABER	759
Multiple scattering of light in a turbulent medium. K. S. GOCHELASHVILI and V. I. SHISHOV	767
Diffrimoscopic image formation under partially coherent illumination (slits and opaque strips). S. V. GUPTA and D. SEN	779
Book reviews	793

No. 11 November 1971

Methods of measuring the modulation transfer function of photographic emulsions. J. C. DAINTY	795
Veiling glare due to reflections from component surfaces: The paraxial approximation. G. SMITH	815
Aberrations of spectrographs with the correction of the Schmidt camera effected in the collimator. J. M. SIMON, L. R. DE NOVARINI and R. PLATZECK	829
An instrument for measuring the direct transmission factor of luminous flux in inhomogeneous media. G. ROSS, J. G. H. GRAY, J. L. ELDRIDGE and I. SANDERS	839
Refraction of spherical wavefronts through a cascade of optically homogeneous non-absorbing media. J. PRASAD and G. MITRA	857
Das Experimentum Crucis und die Theorie der Dispersion. TORGER HOLTSMARK	867
Book reviews	875

No. 12 December 1971

Effects of output-coupling apertures in a resonator on spatial coherence of CO ₂ laser. YOSHIHIRO OHTSUKA	879
Application of speckling for in-plane vibration analysis. H. J. TIZIANI	891
Non-uniform sampling in optical processing. F. GORI and G. GUATTARI	903

	Page
Messung der Durchlässigkeit und des Reflexionsvermögens von Beryll, Topas, Datolith und Zoisit mit polarisierter Strahlung im Infraroten. W. FRIEDL und H. KRÜGER	913
Lichtstarkes katadioptrisches Objektiv. L. ČANŽEK	931
Performance of the optimum apodizers in partially coherent light. S. C. SOM and S. C. BISWAS	939
Book reviews	957
Index of authors (with titles)	959
